PRACTICE
SUCCESS

MASTERMIND

Together we can change the paradigm of healthcare, but first we need to get our business fit for success.

The healthcare system is broken. It has been broken for a long time. We all knew there had to be a better way...and that is why we started fresh. **Our businesses. Our practices. Our way.**

We have all made the brave decision to make a new start with our own practices and studios. In doing so, we have likely found that it is not as easy as we would have hoped it would be and have maybe run into a few barriers along the way.

We're no different. Since 2008, Rejuv Medical has been experiencing all the same barriers and bumps in the road, yet we have managed to grow from 1,200 square feet to 26,000 square feet in just five fast years. That's 21 times larger than our original footprint. Our modest staff of two has expanded to 80+ employees and multiple locations.

That is why we created this mastermind group. Because we all share similar struggles. Those struggles are opportunities to learn together and do something no one has ever done before. We continue to witness and overcome challenges and create changes. Generate growth. Discover greatness.

We share with you a very lofty goal of changing healthcare world-wide. That is why this mastermind group exists. To share successes and learn from each other. To help other practices succeed alongside us and demonstrate how our mistakes can help you avoid missteps. Together, we can be the change that is needed in healthcare and we can get our businesses to the point where we can have the satisfaction and freedom that we all deserve.

Integrated Practice Success Mastermind

We specialize in working with frustrated physicians, practice owners and health professionals who are looking to treat and attract patients for cash pay services such as Regenerative Medicine, Functional Medicine, Medical Weight Loss, Fitness and Wellness so they can practice health and medicine that actually helps people break free from the broken system that has left them with little hope.

If you're like me, you came into this profession to help people, right? It's hard to do that anymore as the system seems stacked against you. I believe that that you also had a burning desire to change lives when you chose to go to medical school. It's professionals like you who are the key to changing healthcare, but so many are frustrated with the current system and feel there is no hope and that "the system" always put profits, big government, pharma and insurance before people.

With our clinical and fitness success at Rejuv Medical, we knew we could change the face of healthcare by helping medical professionals and studio owners deliver affordable and effective healthcare. We created business systems and a coaching program that replicated our model so that we could help other businesses achieve consistent, repeatable and predictable results. It took us years to figure out how to create a highly-profitable and life-changing clinic through expensive, painful trial and error. Now others can achieve this success in half the time while following our "5 Pillars of Practice Success Platform." Your mission, should you choose to accept it, is to join us in re-defining healthcare. We are looking for motivated professionals who are using their businesses to make the world a better place and are ready to achieve radical success with our intensive, customized support.

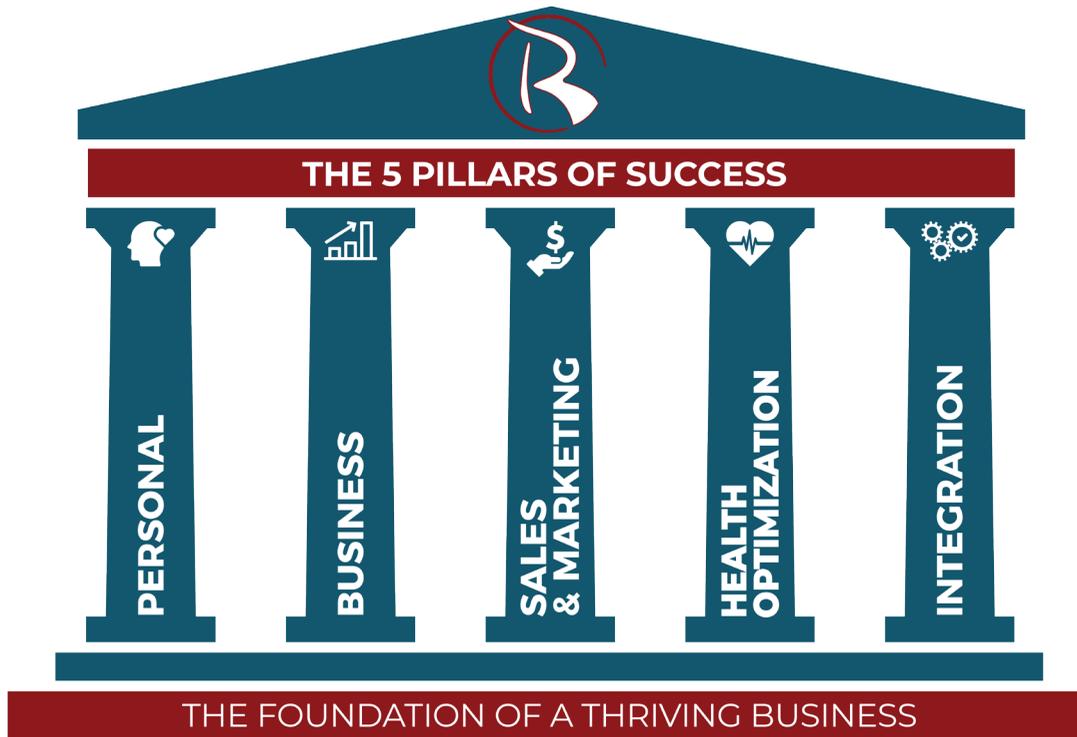

Here's what that looks like for those who are ready to take action!

We have designed a 12-month program designed to help you have better business practices, increase your marketing results, have a long-term plan based on attainable goals and create a model that is not solely dependent on YOU.

Here's what's included:

- Three Live Business Mastermind Weekends to help you and a team member “get it done” and make the next best moves that will propel your practice forward with our strategic action plans.
- Four Live Regenerative Skills Training Labs.
- 2-Day Shadow at the Rejuv Clinical Experience.
- Comprehensive Clinical Systems and Blueprints: forms, documents, templates, Rejuv library, and “Done-For-You” marketing assets.
- 5 Pillars of Practice Success Curriculum to learn marketing, sales, and business-building skills at your own pace, at the convenience of your own computer.
- LIVE 5 Pillars of Practice Success monthly question, answer and accountability group calls.
- 4 private 1-on-1 strategy and execution calls with Garrett during your first month.
- Access to our annual Summit event for you and a member of your team.
- After the first month, LIVE 1-on-1 coaching calls with Garrett each month.
- Private VIP Facebook Group and member directory to stay connected with other top like-minded peers whom you can partner with and can promote YOU if you create or have an online program or product.
- Discount pricings on kits, supplies, programs and services (we strive to save you more than you pay for the program).
- Personal roadmap to help create you or an employee as the beacon in your community (1st Step to Success For Your Business)

Developing 5 Pillars of Success

Personal Tools and resources to obtain your ultimate wealth, health, relational, and impact goals. Find your personal unique skills that you must spend the majority of time doing. Learn tips and strategies to be an effective leader, communicator, delegator and creator of all your goals. The Personal Pillar is also about your story, unique process for patient outcomes, and crafting the right message, mission and core values to give your practice the quantum leap to the next level.

Business Organized, effective systems that drive your team's development, accountability and success. The more simple your systems and core processes are, the less confusion, chaos and communication gaps your practice will encounter. Structure is necessary for scalability, consistency, financial and time freedom. Accountability of team members is critical for a lean, streamlined and effective approach, which directly impacts patient care.

Sales & Marketing Essential for growth and long-term success. Lessons will focus on creating comprehensive treatment plans with maximum compliance to obtain progressive patient outcomes, selling without selling and infographics of your system that easily communicate your experience to patients. In today's marketing world one also must be sophisticated with digital marketing and automation.

Health Optimization Whether you are a medical clinic or a solo fitness studio, we can help you create relationships in your area to create a model of healthcare that will help each business. For those ready to add the medical or fitness side to your current business, we are ready to help you create the plan and structure with reduced risk and faster implementation. Together we can help change the paradigm of healthcare.

Integration Creating a successful practice that uses comprehensive and ancillary opportunities will maximize patient outcomes and practice success. It is beneficial to have several offerings although having them harmoniously communicate together without dialed in systems and procedures will be very difficult to make happen. Too many integrated practices operate in silos, when the need to integrate them to provide the best patient outcomes is essential. When you attend the Integrative Practice Success Summit, you'll receive a comprehensive review of Rejuv Medical including the services, offerings and systems to create a dynamic and impactful model of health.

REGENERATIVE ACADEMY: with Joel Baumgartner M.D. and other regenerative leaders

- Comprehensive Injection Training of the Spine and Peripheral Joints
 - LEVEL 1 Palpation Based
 - LEVEL 2 Ultrasound Based

Dr. Baumgartner and his team of regenerative practitioners will be teaming up with you over the next 12 months on the art of regenerative injections. Together, they have created one of the most successful regenerative clinics in the nation which serves patients from all around the world. The reason for the success is because they are able to get results for their clients and optimize their outcomes using propriety systems based on the CFAN model.

Over the next 12 months you will receive:

- One-on-One training and clinic shadowing at Rejuv Medical
- On-line LEVEL 1 and LEVEL 2 Training
- Monthly Webinars on Patient and Practice INTEGRATION and OPTIMIZATION Pearls and Case Studies
- Four LIVE Regenerative Injection Training Workshops
 - Cadaver labs
 - Live patient demonstrations
 - Injection technique training
 - Lectures to better understand regenerative medicine and outcomes

WHAT IT MEANS TO BE IN THE INTEGRATED PRACTICE SUCCESS MASTERMIND

Joining the Mastermind means joining our family. We are committed to you being your best self, living your best life, and making the greatest contribution you can make in your lifetime.

To join our family means to step with faith and not let fear rule your life.

"My purpose is to make an impact large enough to get the attention needed to change the way the health system operates and decrease the rise in chronic diseases that are killing our patients, families, and communities."

- Joel Baumgartner, M.D.

Your commitment:

We designed this to be a high-end, high-touch experience to help you intensify your business in the next 12 months. Each of the systems and events purchased separately is worth over \$100K but we have created the mastermind group to be affordable for those willing to commit and take action. We will accept those willing to dedicate their efforts but only for an introductory period of three months. This will allow us to see if you are able to make the strides needed to improve your business. This also allows you to see if we are the right fit for you.

Three Month Introduction Program *(During this conference only)*

\$1500 per month or \$3750 Paid in Full *(you save \$750)*

To Continue After Three Months *(During this conference only)*

\$1200 per month or \$10,250 Paid in Full *(you save \$550)*

To join means you acknowledge your true worth and give yourself the support and the life you deserve for your family and for your patients or clients.

*You deserve this.
Say "YES" to yourself.*

YES!

Let's get started building your dream practice together.

LET'S GET STARTED!

When you can't do what you want, do what you need to, until you can do what you want to. But, when you can finally do what you want, do it with all your heart and passion leaving nothing left.
